

# STICKER

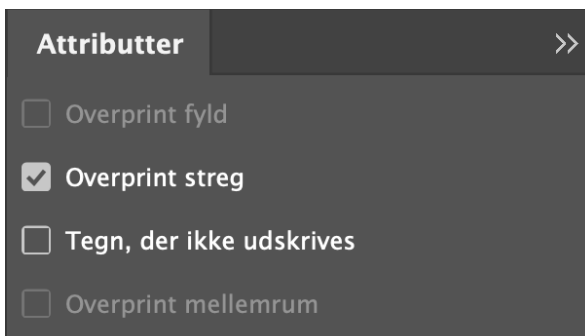

- Please note that images must have a minimum resolution of **300 PPI at 100%**.
- REMEMBER to convert images and graphics to **CMYK**.
- REMEMBER to **outline the text**.
- REMEMBER to extend the graphic **3 mm** beyond the CutContour.

CutContour

- Make sure to place a cutting line on top, using a Spot color.
- It MUST be **100% magenta** and be named **CutContour**.

- Under Attributes, the cutting line must be set to "**Overprint Stroke**".
- You can find Attributes in the menu: "*Window -> Output -> Attributes*".
