Recycled Performance

FROM WASTE TO WORKOUT

Neutral's Recycled Performance line is made from 100% recycled polyester crafted from post-consumer plastic bottles collected in India.

11 PLASTIC BOTTLES = 1 T-SHIRT

Our Recycled Performance collection is crafted from plastic bottles rescued from landfills in India. Instead of being discarded, we transform them into high-performance activewear.

This way we give you the opportunity to help reduce plastic waste and conserve energy!

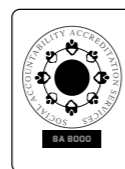

Just like our cotton, our recycled polyester is manufactured and certified according to the highest environmental, social and ethical standards in the world.

Whether you're hitting the gym, running the trails, or stretching on the mat, our styles are crafted to support every move and keep you performing at your best!

Recycled polyester made from plastic bottles

100% recycled polyester made from post-consumer plastic bottles collected from landfills in India.

Factory workers are hardworking people

So, it goes without saying that it's fair they have good, safe working conditions. By using SA8000, we know this is the case.

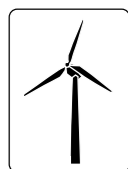

Treating, reducing and recycling wastewater

We use the most environmentally friendly dyes and continuously innovate the way we make clothing according to the highest standards.

100% toxic free and ready to wear garment

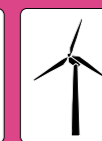

Our finished products are screened for hazardous chemicals and other harmful substances to ensure they are safe to wear.

Production powered by renewable energy

Neutral contributes to a cleaner environment and fights climate change. The energy in surplus from production is led to the local community.
